Statement II

*Steps taken from time to time to reduce pendency.*

The following steps have been tak en in recent years to reduce pendency in the Supreme Court and High Courts;

1. The Code of Civil Procedure was amended in 1976 to abolish Letters Patent. Appeal from judgment of Single Judge of the High Court in Second Appeal (Vide section 100-A).

2. The Code of Criminal Procedure based on the recommendations of the Law Commission was enacted in 1973.

3. The Judge strength of the Supreme Court has been raised from 13 to 17, excluding the Chief Justice, with effect from 31-12-1977 by amending the Supreme Court (Number of Judges) Act, 1956.

4. The sanctioned strength of the High Court judges has been increased from 351 in March 1977 to 430 as on lst February, 198G.

5. The Supreme Court has also taken the following measure-:

(i) Priority Ls given to certain matters;

(ii) Miscellaneous matters are fixed daily;

(iii) Writ Petitions with identical questions are grouped together and batches running from 50 to 100 matters are listed together for hearing;

(iv) Other matters involving j identical questions are also identified from time to time and put together and efforts are made to see that such ,groups are disposed of early;

(v) The Supreme Court Rules were revised in 1966 providing for printing of records under its own supervision. As that was also taking quite sometime, the Court, of late, has started wherever possible, dispensing with the preparation of records and hearing the appeals on Special Leave Paper-Book itself, after the parties have filed their counter-affidavits and affidavit;! in reply;

(vi) To save the Court's time, the Honourable the Chief Justice of India is taking mentioning after Court's hours, which were previously taking at least about one hour;

(vii) In Criminal Appeals, Counsel for the Appellant is required to file cyclostyled record to save time in getting it printed so that the matters could be heard early.

(viii) The Hon'ble the Chief Justice of lndia has recently directed that the Counsel in each matter must file written arguments, if the arguments are to take more than five hours on each side. The oral arguments, on each side are now restricted to five hours unless the court feels that time is to be given to the counsel, in which case a maximum of ten hour£i are given for oral arguments to each side. The length of oral arguments by counsel of both the sides have thus been curtailed which results in. the quick disposal of matters.

(ix) The Supreme Court Rules have been amended empowering Honourable Judges in Chambers and the Registrar to dispose of certain types of matters which were previously heing listed in the Court. This has been done to save the Court's time;

(x) Specialized benches are constituted to list particular type of matters relating to that branch

of law in which the Honourable Judges constituting the Specialized Bench are experts. This enable the Specialized Bench to dispose of such matter expeditiously.

6. Apart from the above, certain High Courts are taking the follow ing steps for ensuring better dis posal of cases.

(a) Cases, involving common questions are being grouped by several High Courts;

(b) Matters fixed for hearing by giving short returnable dates;

(c) Dispensing with printing o? records-;

(d) Expediting and giving priority to matters under certain Acts.

7. The recommendations contained in the 79th Report of the Law Commission have been examined. As action on majority of the recommendations is to be taken by the State Governments and High Courts, these have been sent to them alongwith the views of the Union Government and they have been requested to take necessary action.

8. The Government have entrusted to tho Law Commission the study of the Judicial system to introduce necessary reforms. The terms of reference are:

(a) the need for decentralisation of the system of administration of justice by:—

(i) establishing, extending and strengthening in rural areas the institution of Nyaya Panchayats or other mechanisms for resolving disputes.

(ii) setting up a system of participatory justice with defined jurisdiction and powers in suitable areag and centres.-

(iii) establishing other tiers-or system^ within the judicial hierarchy to reduce the volume of work in the Supreme Court and the High Courts.

(b) the matters for which Tribunals (excluding services Tribunals) as envisaged' in Part XIV-A of the Constitution need, to be established expeditiously and various aspects related to their establishment and working.

(c) the procedural laws with a view .generally to disposing of cases expeditiously, eliminating unnecessary litigation, delays in hearing of cases and reforms in procedure;; and procedural laws and particularly to devising procedures appropriate to the forums envisaged in items (a) (i) and (a) (ii);

(d) the method of appointments to subordinate courts/ subordinate judiciary;

(e) The training of judicial officers;

(f) the role of the legal profession *m* strengthening the system of administration ol justice;

(g) the desirability of formulation of the norms which the Government nnd the public sector undertakings should follow in the settlement of disputes including a review of the present system for conduct of litigation on behalf of the Government and such undertakings;

(h) the cost of litigation with a view to lessening the burden on the litigants;

(i) formation of an All India Judicial Service: and

(j) auch other matters as the Commission considera proper or

necessary for the purposes afore said or as may be referred to it from time to time by the Govern ment. *I*
